

As the legend goes, a monk who was believed to possess extraordinary spiritual powers chanced upon a hill and was left speechless by its purity and beauty. Revered for his Chinese seed development skills, the monk, along with his fellow monks helped develop an exceptional brew-inimitable and unmatched till today. The **“Sidrabong”** gardens were thus established in the 19th century and the legendary formula was passed over, giving us **“Arya Monk”** Bio Organic Certified Darjeeling Tea.

Arya is prolific producer and exporter of the finest range of Black Tea and the delicate varieties of Green Tea. It also has a range of its own jewels- Ruby (Black Tea), Emerald (Green Tea), Pearl (White Tea), Diamond (Chunky Tips) and Topaz (Oolong), along with its flavored teas like Jasmine and Rose Teas.

Arya

Altitude	900-1800 meters
Location of plantation	Near Darjeeling Town
Area under tea cultivation	80 Ha
Gross area	241 Ha
Production per year	70 tons

The beautiful Avongrove tea estate, is situated in the foothills of the Himalayas in Darjeeling, overlooking the Balasun River. A specialty at Avongrove is the way they manufacture their teas- employing the age old traditional methods, they nurture each leaf from the time it is carefully hand-picked to when it is packed with pride as the finest Darjeeling.

During the first flush period in early February and March, the leaf offers a crisp, light brew; during the second, the finest Avongrove cup is a gentle gold in color, smooth and full of flavor. With five hundred workers live on the estate with their families, in small houses decorated with orange trees and flowers, life at Avongrove is simple... nobody disturbs the hills and they always welcome our frequent bird visitors drawn to Avongrove as an organic estate, free from chemicals.

Avongrove

Name of the garden	AVONGROVE

Area under tea cultivation	320 Ha
Production per year	30,500 kgs

About the Tea Estate: Giddapahar is located on a mountain which is just a short drive from Kurseong. The garden is situated at 4864 feet above sea level. The Estate is a small family owned Darjeeling tea estate which is also known as "Eagles Cliff" lying very close to Kurseong town. From the estate, one can view the magnificent site of the mountains which also makes it the perfect site for taking photographs.

Giddapahar is almost 100% covered with pure china tea bushes and has followed the legendary classic grade production of Darjeeling Teas. The tea from Giddapahar Estate is very delicate due to the lower temperatures here and also because the area itself is covered by mist for a good part of the year. Teas are planted and picked by using traditional methods. Due to the temperature, the tea bushes from the estate produce a fine bouquet with great aromatic quality and a delicate floral smell.

Giddapahar

Name of the garden	Giddapahar
Meaning of name	Eagle's Cliff (in Nepali)
Pronunciation	GI-DA-PA-HAR

Gross area	Giddapahar

Glenburn is a heavenly little plantation retreat that lies on a hillock above the banks of the River Rungeet, high in the Himalayas, overlooked by the mighty Kanchenjunga mountain range.

The Glenburn tea that you will receive will be from a single "batch" of tea produced on a particular day of a particular season. You will be provided with details on the specific growing conditions for that particular batch, from the rainfall and temperature on that day to the section of the estate your tea has come from and also the planting material used. All Glenburn tea comes from a series of Special Harvests conducted throughout the year on the best days of a particular season.

Glenburn

Name of the garden	Glenburn
Meaning of name	Valley with the River
Pronunciation	GLEN-BURN
Organic/non-organic	Non-organic. Complies to international MRL laws.
Altitude	300-1000 meters
Location of plantation	Teesta Valley Sub-division
Area under tea cultivation	280 Ha
Gross area	758.85 Ha
Production per year	150 tons

Goomtee Tea Estate is located in the Kurseong (the land of orchids) Valley of Darjeeling. Due to cool & moderate temperatures and generous rainfall, this garden produces some premium Darjeeling teas every year. The weather in Goomtee Estate is perfect for tea growing – not so cold like Darjeeling, nor so hot like the lower regions. As a result it helps the garden to produce some of the most aromatic teas.

The Muscatel Valley Division of Goomtee Tea Estate has adopted organic (pesticide free) farming practices for several years.

The tea is processed separately in the Goomtee Factory as per **ISO 9001** and **HACCP standards**. The quality is absolutely top grade because of the high altitude of over 4500 ft and pure china leaf combined with excellent harvesting methods.

Goomtee

Name of the garden	GOOMTEE
Meaning of name	Goomtee comes from Nepali word 'Ghumti' meaning 'Place of Turning'.
Pronunciation	GOOM-TEE
Organic/non-organic	Bio- Organic
Altitude	3000-6000 ft
Location of plantation	South Kurseong
Area under tea cultivation	200 Ha
Gross area	225 Ha

Jungpana Tea Estate is tucked away from prying eyes at the 'back of beyond' on rugged mountainside at altitudes ranging from 3,000 to 4,500 ft. Surrounded by pine forests on the upper reaches to the north, and swiftly gurgling mountain streams to the south, east and west, skirted by dense vegetation, the Tea Estate is almost impregnable – cocooned by Nature for safe keeping. No wonder then that the Estate is endearingly referred to as “*an Island in the Mountains*”

Jungpana teas have been globe trotting from the early days when Darjeeling Teas became known. It has been served at the breakfast table and as the highpoint of gracious ladies tea parties in Europe & England during British times, and much acclaimed for its delicacy. Even today the tradition continues as some of the very finest special teas also continue to be served for Royalty. Its position as a connoisseur's delight has been strengthening over the years.

It is the world's first tea factory and was established in 1859. **Makaibari** follows a form of integrated forest management called permaculture where the tea bush is part of a multi-tier system of trees and plants typical of a sub-tropical rainforest, as opposed to a monoculture-- a farm that grows only one crop. Makaibari retains 70% of its entire area under forest cover.

This is the oldest and the most talked about tea estate in Darjeeling district which is still run by the descendants of Banerjee family who were the original founders of the estate. Located in Kurseong and covering a gross area of 750 hectares, Makaibari has gone on to win many accolades in the world tea platform. It has always been one of the top tea producing gardens in the world. Makaibari is located 45kms from Siliguri/Bagdogra and 37kms from Darjeeling.

The garden is named after its previous owner, Mr. Bagdon's youngest daughter Margaret, who fell in love with it, but could not return to the garden after her visit and died soon after. In her memory, her distraught father changed the garden name to Margaret's Hope. It is believed that she visits the estate bungalow from the western side, coming through the main guestroom and leaving from the study through the verandah to the tennis courts. Those that have spent the night in her room sense her presence on these ghostly forays.

The bushes at Margaret's Hope are almost entirely the Chinese Jat (genus) accounting for the green leafed tippy appearance of the manufactured leaf and the superb fragrance. Margaret's Hope Estate is one of the most consistent of all the Darjeeling gardens, and is known to tea enthusiasts worldwide as a top Darjeeling producer. The Garden is certified for FSSC 22000, Rainforest Alliance & Utz.
